

FOR IMMEDIATE RELEASE

M&M Pump and Supply, Inc. Announces Acquisition of Carmi, IL Supply Business

Flora, Illinois, June 2007

M&M Pump and Supply, Inc., a leader in the supply, repair and servicing of oil and gas field and industrial products and equipment in the Illinois and Appalachian Basins, announced the acquisition of the supply business of Nelson Pump and Supply, Inc., Carmi, IL.

In connection with the transaction, Nelson's inventory of pumping units, parts and related supplies was relocated to M&M's Flora, IL location. The acquisition is part of M&M's growth strategy to add new locations and services both through internal expansion and acquisitions.

M&M stocks the largest inventory of tubulars in the Illinois Basin as well as a complete line of pipe, valves and fittings and fiberglass tanks to meet the needs of its oil and gas field, industrial and agricultural customers. M&M also provides hydrostatic testing of tubing, steam cleaning and an array of field maintenance and construction services including rental of field equipment. In addition, M&M has a complete machine shop which services and refurbishes equipment including pumping units and engines and stocks one of the broadest inventories of spare parts for all makes and models of oil field equipment.
